7-POWER CONTRACTOR RADIO

Learn how to run your contracting business with less stress and more success...on the go!

7-Power Contractor Radio is a podcast hosted by Al Levi that provides plumbing, heating, cooling, electrical, and other service contracting business owners with information and insights on how to run their business better.

Why listen to Al? Al has been where most contractor business owners have been. He knows how hard it is. He also knows it doesn't have to be that way.

Al created 7-Power Contractor Radio so he could get to contractors where they spend most of their time — in their trucks and at their desks. All episodes are under 10 minutes so they can listen and learn as they go.
